### A facelift for Camanga

Camanga is the farm school adopted by Generation Joy this year. With money raised at our annual

auction, the Spring and Summer Travel Teams from Florida and Seattle were able to paint and beautify the building and grounds, giving students and staff a sense of pride in their school. This project will be ongoing and future support will include school uniforms, teacher training and science equipment!

### **The school supplies must get thru'**

Well what a year for the school supplies to be delivered! We were held up in customs and then the snow fell. But we always

promise "from your hands to theirs", and despite the obstacles, this year was no different: school supplies were placed directly into the hands of thousands of learners.

### **You may get some good bargains in school supplies.....**

Now that school has been in session for a couple of months, you may find some good clearance sales on school supplies stock up now to contribute

during the drive in March. And if you have outgrown a bike there is someone that is just the right size for it in Africa!
